

Team Minichiello stood on top of the podium once more as they took gold in the Europa Cup race at St Moritz on the 21st January.

Due to missing two World Cup races while Nic was receiving treatment for her eye, the team squeezed in the Europa Cup as an extra race to give them all important points to improve their ranking going into the Olympics.

Sitting in 3rd behind the two German teams after the first run the girls put in a brilliant second run to move into the lead, eventually taking gold by 0.08 seconds ahead of Schneiderheinze-Stöckel of Germany.
